Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Bokam Hari Charan
Overall Team Coordination Rating (1-5)	5
Any issues during demo	None. The local server environment initialized without errors using pre-compiled native Anaconda package distribution vectors. Previous temporary file execution bugs and workspace indentation errors were fully resolved prior to submission.
How issues were resolved	Executed the system runtime scripts directly through isolated terminal prompts (python app.py) instead of relying on scratchpad runner attachments, ensuring clean execution structures.
